

# Request an Eagle Scout Project Review Meeting

While a Life Scout, Scouts must plan, develop, and give leadership to others in a service project helpful to a religious institution, school, or community. The project must benefit an organization other than Scouting. A project proposal must be approved by the organization benefiting from the effort, the unit leader and unit committee, and the council or district prior to starting the project. Resources:

- [Guide to Advancement](#)
- [Eagle Scout Service Project Fundraising Application](#)
- [Service Project Guidelines](#)
- [Service Project Planning Guidelines](#)
- [Life to Eagle Scout Resources](#)

After obtaining approval from the organization benefiting from the effort, your unit leader and unit committee, fill out the form below to request a meeting for district approval. Bring your [Eagle Scout Service Project Workbook, No. 512-927](#) with all required signatures, except the district.
